# Concrete5 CMS.

Making Digital Simple.

## **A purpose built CMS. Fit for purpose. Point and click. Any change. Any time. CMS editing made simple.**

Concrete5 is a cutting edge, purpose-built "Content Management System" (CMS). Do you find it frustrating to update your website, with little access, or you can't find how to do what you need to do? If so then Concrete5 can take away those frustrations and make editing your site really easy!

We believe that Concrete5 is the best CMS in the market, because it has been designed to be really easy and intuitive to use. "In-context" editing means you edit your websites' pages on the "front-end", as you look at them.

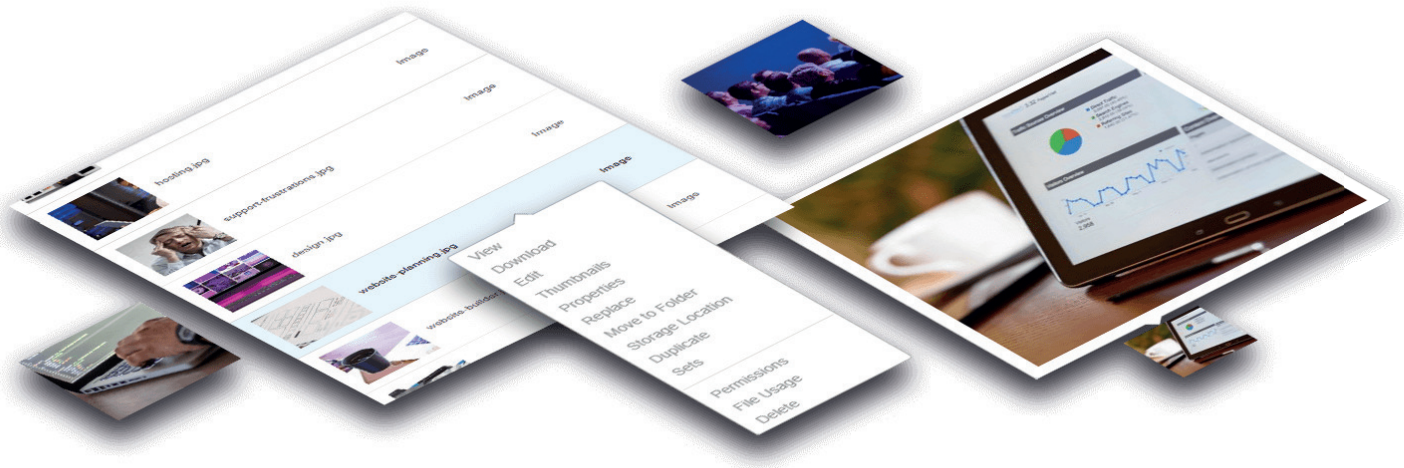

Typical challenges we solve include:

- Current site is difficult to update or bugs/errors updating it
- Custom blocks/Dashboard pages that make complex tasks easy
- Slow website - Concrete5 built right is will deliver performance and efficiency
- Easily create tailored landing pages for SEO and PPC marketing

Our methodology with new website projects is:

## **Plan it Right, Design it Right, Build it Right.**

Using Concrete5 we can take away the frustrations you are facing with your current CMS and deliver an easy to update, low maintenance, low cost solution.

We have used Concrete5 extensively for all types of project. We have developed Concrete5 websites, from start-ups to multinational companies.

We have created countless custom blocks and themes, full websites, rescued Concrete5 projects that have gone haywire and integrated Hubspot, Zendesk and other API's with the Concrete5 CMS.

Take the first step to a frustration free website.  
Get in touch to see how we will make digital simple for you.

Whether it's a new website launch, increasing your current websites performance, fixing those frustrating technical issues or being the calm in the digital storm, we've got your back!

Please contact us using the details below. We're always happy to have a no-obligation chat and we don't use high pressure sales techniques...
